OBJECTIVE

My objective is to obtain a position in a professional office environment where my skills are valued and can benefit the organization. Ideally, I wish to have a focus in marketing for a growing organization preferably dealing in commercial real estate and/or land acquisitions.

EXPERIENCE

- **Eduphonix Solution** **01-07-2025 - 30-07-2025**
  Cloud computing Intern
  Completed a hands-on internship in Cloud Computing at Eduphonix Solutions, gaining practical exposure to cloud concepts and services. Worked on understanding cloud architectures, deployment models (IaaS, PaaS, SaaS), virtualization, and cloud security fundamentals. Gained experience with cloud platforms, resource management, and real-time use cases, enhancing skills in scalable computing, problem-solving, and modern IT infrastructure.

EDUCATION

- **ANNA UNIVERSITY** **2023-2027**
  Bachelor of Engineering (Computer Science and Engineering (Artificial Intelligence and Machine Learning))
  7.1%
- **PARAMVEER METRIC HIGHER-SECONDARY SCHOOL PAPPARAPATTI** **2019-2021**
  77.87%
- **GOVERNMENTGIRLS HIGHERSECONDARYSCHOOL PAPPARAPATTI** **2018-2019**
  63%

SKILLS

- TECHNICAL SKILL
  Basics : Java (Fundamentals)
  Basics :Python,AWs
  Basics : RAG, LLM
  Intermediate :HTML, CSS, JavaScript
  Basis :React Js,Rest API

  SOFT SKILL
  Adaptability
  Time Management
  Communication

PROJECTS

- **CHEFSPHERE**

  CHEFSPERE is an intelligent recipe and food management system designed to provide personalized cooking recommendations. It analyzes user preferences and available ingredients to suggest suitable recipes. The platform enhances user experience through smart food planning and efficient kitchen management, Integrated with Mobile App.

- **SMART ELECTRIC FENCE HUMAN AND ANIMAL SAFETY SYSTEM**
  Developed an IoT-based Smart Safety Electric Fence system using ESP32 with a mobile application for real-time monitoring and remote control. The system detects human/animal movement, abnormal electrical conditions, rain, and soil moisture, automatically switches off the fence during unsafe conditions, and sends real-time safety alerts through Firebase.

- **MULTI-AGENT AI-BASED SMART CITY RESOURCE COORDINATION SYSTEM**
  Developed an AI-driven smart city coordination system that uses multiple intelligent agents to manage emergency response, traffic, public safety, utilities, and disaster situations. Integrates real-time incident analysis, resource allocation, and optimization to support faster decision-making and efficient urban resource management.

INTERESTS

- I have Strong Intrest in
  Coding and Software Development
  Full-Stack Development
  Web Development
  Machine Learning
  Cloud Engineering

LANGUAGE

- English
  Tamil

ACHIEVEMENTS & AWARDS

- Attend to published a confrence paper in IEEE 6 th International Conference at John's Technology in bangalore. and also paper as indexed in Scopus. Participated in Paper Presentation on " Smart Home Security System" at Sri Ramakrishna Engineering College ,Coimbatore participated in 24 hours Hackathon in K. Ramakrishna college of Engineering, Trichy
  Participated in 'CODEWAVE -26', National Level Hackathon at SRM Institute Of Science And Technology, Chennai-Ramapuram.
  CERTIFICATIONS
  Certified in Basis of Full Stack Development
  Certified in cloud Computing
